

# Slideout Rangehood Wall unit PK 72/72T

1. Join the back to the left side and tighten cams
2. Join the top to the left side and tighten cams
3. Screw in the Euro dowels into the sides and knock in the shelf cams into the horizontal partition and tighten the shelf cams to lock in
4. Fit right side, making sure adjustable shelf holes are facing each other
5. Fit the rangehood to the underside of the fixed shelf so the distance from the base of the cabinet side to the top of fascia is 122-125mm
6. Fit hinge plates and door hinges then fix doors to cabinet.
